## **MSP (MOLECULAR SCIENCE PRODUCTS PTE LTD)**

To whom it may concern

I confirm that I have used MSP product (Engine Formulation) for six of our tug boats and since using the product, I can see the difference in the performance of the engines on the tug boats.

Please see the list of before using MSP and after using MSP.

### **Before MSP**

Rough engine

High engine vibration

High noise level

High black smoke

High operating temperature

Less power output

High consumption of fuel

### **After MSP**

Smooth engine

Less engine vibration

Lower noise level

Less black smoke or no smoke

Lower operating temperature

Higher power output / efficient engine

Save 7% to 8% traveling time

Lower maintenance cost

By using MSP we have achieved all the above and we will highly recommend MSP to other Tug Boat owners.

Yours Sincerely

Sulyman Marie

Operations Manager
